

FSV Risk Advisory changes to ONE Risk Advisory

Integrated vision on internal control

FSV Risk Advisory will become ONE Risk Advisory as of March 1, 2022 and will move to Amsterdam. After ten years, this step forms an excellent basis for further growth. The new name underlines the unique integrated approach to Internal Audit, Risk Management and Governance.

Over the past ten years, a growing team of professionals has shown that this vision and approach works. FSV Risk Advisory has built a strong position as an important service provider in the field of Risk Management and Internal Audit. This growth will be further shaped under the name ONE Risk Advisory, whereby three areas of expertise - Governance, Risk Management and Internal Audit - will be seamlessly combined and customers will be assisted in organizing good internal control..

"Not because you have to, but because it matters." says partner and co-owner Robert Bogtstra about dealing with internal control: "What matters is that organizations can take well-informed risks and thereby really make a difference. After all, profit is a reward for taking risks and those who do better have an advantage.

Hans van Everdingen, partner and co-owner: "The name ONE Risk Advisory fits better with this integrated vision and with our ambitions for the coming years. We help our customers to set up their organization in such a way that they can be critical when it matters and can take calculated risks when possible. We do this with specialists who each contribute from their own expertise. They empathize with the needs of customers and from there can put the typical ONE Risk Advisory vision into practice."
